iDbase Software

Data Testing as a Service

(DTaaS)

Ensuring Data Integrity, Compliance, and Trust Across Your Business

Delayed or failed transformations in migrations

Inaccurate reports due to poor data quality

Limited visibility into testing coverage across data pipelines

Compliance risks from unvalidated data

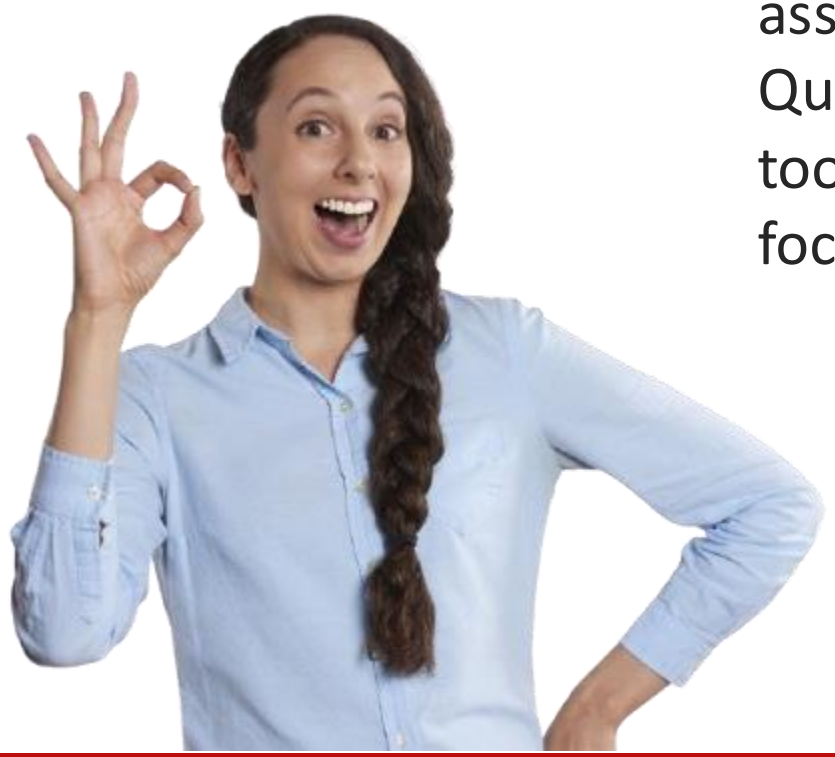

Failed BI projects due to ETL errors

Worried about the situation?

DTAAS IS BUILT TO FIX THAT

Data Testing as a Service (DTaaS) is a fully managed solution that tests, validates, and assures your data quality at scale using QuerySurge and Profisee. We bring together tools, expertise, and automation so you can focus on delivery, while we ensure quality.

KEY OFFERINGS

- Automated ETL/ELT Testing
- End-to-End Data Migration Validation
- BI & Report Accuracy Assurance
- Master Data Quality Validation (MDM)
- Regulatory & Compliance Data Validation
- Data Regression & Continuous Testing
- Insightful Dashboards & Health Monitoring

WHY US?

- **Expert Tool Enablement**: Powered by **QuerySurge** (for testing) + **Profisee** (for MDM validation)
- **Rapid Deployment**: Ready-to-go templates and frameworks
- **Test-as-Code & Automation**: Scalable testing across environments
- **Insightful Dashboards**: Realtime visibility into data health
- **Delivered as a Managed Service**: No tool sprawl, no maintenance burden

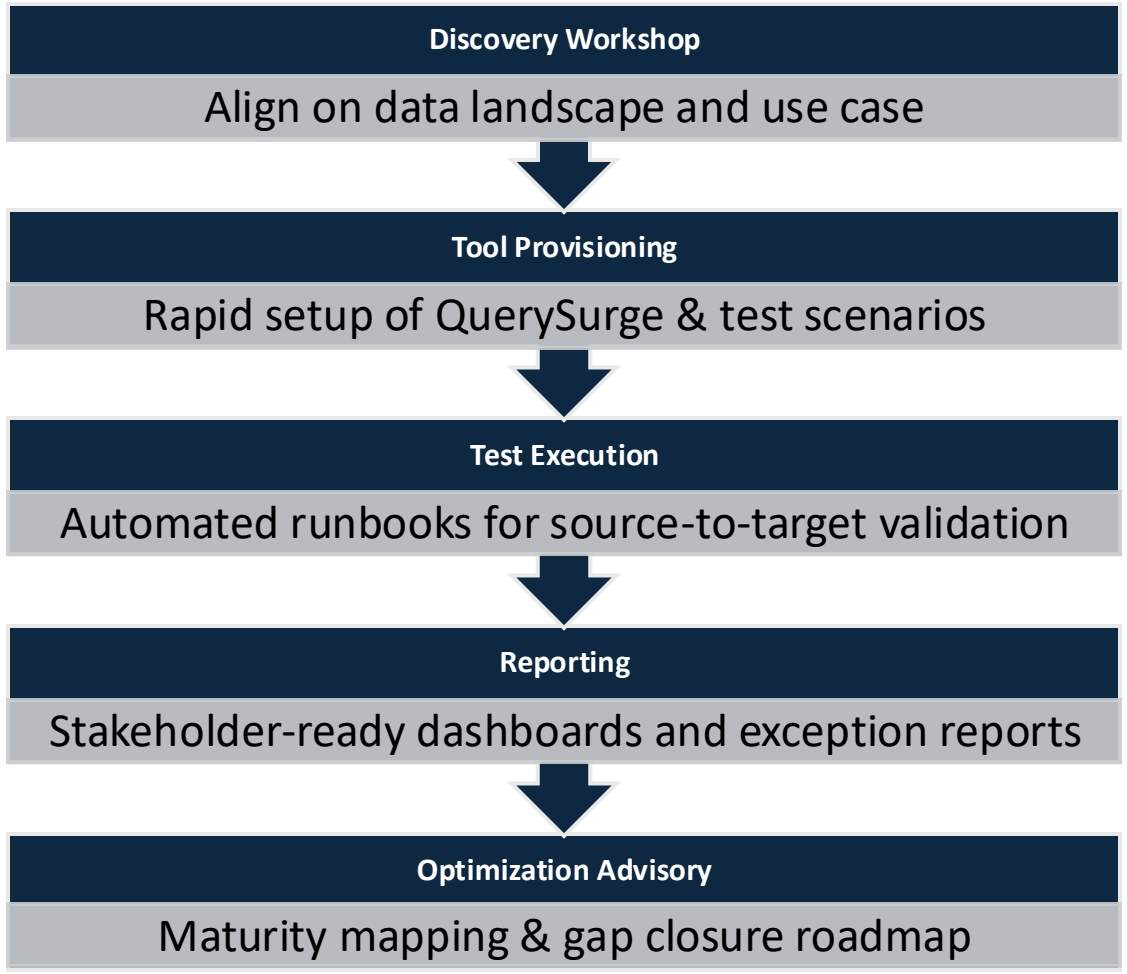

DTaaS Managed Service

DTaaS MANAGED SERVICE

Imagine launching your next BI project, migration, or compliance audit — knowing your data has already passed thousands of automated tests

Delivery Model	Description
Managed Service	• End-to-end delivery managed by iDbase with SLAs for coverage, accuracy, and response time.
On-Demand Testing	• Flexible engagement for specific test cycles (e.g., migrations, compliance checks).
Hybrid Execution	• Combination of automated tools and manual oversight to validate edge cases.
Secure Cloud or On-Prem	• Test execution available in secure cloud environments or deployed in client infrastructure.

IMPLEMENTATION APPROACH

GETTING STARTED

Speak to an iDbase product advisor to request a demo or learn more about how Data Testing as a Service (DTaaS) can support your business.
